

JANA GEERING

JANA GEERING is a premier design company specializing in high-quality interior decoration and furnishing for ships, hotels, and private residences. The company provides expert guidance and innovative design solutions to help clients optimize their living spaces, creating an atmosphere of harmony and elegance.

Founder Jana Geering brings many years of extensive experience in textile design and interior decoration. She has worked as a fashion designer and consultant for prestigious brands such as Escada, Strenesse, Mondì, Louis Féraud, and Rena Lange. Her expertise extends globally, having advised on the decoration of private and diplomatic residences, luxury hotels, and business spaces.

Through her work across diverse cultures, Jana Geering has gained invaluable knowledge of international design aesthetics and traditions. She now applies this experience to her own company, leading a team of highly skilled experts dedicated to fulfilling each client's vision with precision and sophistication.

Discover the Power of Biocrystal®

Natural Energy for Rest, Balance & Wellbeing

Biocrystal® is a scientifically developed blend of 16 natural crystals, carefully selected and combined to support relaxation, stress reduction, and overall wellbeing. Integrated into fabrics, Biocrystal® technology delivers the benefits of crystal therapy in a convenient, non-invasive way — without direct skin contact.

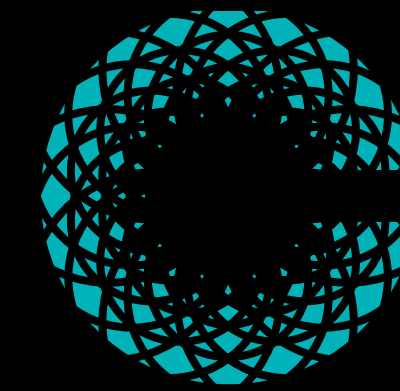

Developed over 15 years of research and testing, Biocrystal® has shown measurable effects on the body and mind. Independent scientific studies have confirmed that Biocrystal® helps reduce physical tension and mental stress, promoting deeper relaxation and improved recovery.

Key Benefits:

- » Reduces stress and anxiety
- » Improves sleep quality
- » Supports faster recovery and regeneration
- » Enhances emotional and physical balance
- » 100% natural, safe, and skin-neutral

How It Works

The natural vibrational energy of the Biocrystal® blend interacts with the human biofield, encouraging the body to return to a balanced state. Once embedded into textiles or materials, Biocrystal® continuously emits this beneficial energy — with no expiration date and no need for activation.
